Economist Internship Programme

The **Bureau for Economic Research** (BER) at Stellenbosch University, **Afrifocus Securities, Kagiso Tiso Holdings and the South African Reserve Bank** wish to announce the commencement of recruitment for the 2013 economist internship programme at the BER.

Objective: The primary objective of the internship programme is to provide practical training to an appropriately qualified previously disadvantaged individual so that he/she is able to function as an economist in the private and/or public sector. The successful candidate will work alongside BER economists for one year to gain experience in all the aspects of business orientated macro-economic analysis.

Employment Opportunity: The successful candidate will be employed by the South African Reserve Bank, but will spend the first year of employment in training at the BER. (The recruit will receive a competitive salary, even during the internship year at the BER.)

Relevant dates: Recruitment will take place during July 2012 and interviews will be held during August. The internship will start in January 2013 and end in December 2013.

Criteria: Candidates should meet the following criteria:

- Be a **South African** citizen
- Qualify as a **previously disadvantaged individual**
- Hold an **Honours or Masters degree in** Economics (by January 2013)
- Be **fluent in English**
- Possess **excellent communication and writing skills**

Contact Details: Candidates can contact **Jenny Terwin** for more information and should **submit a curriculum vitae, academic record and proof of academic qualifications** (i.e. certified copies of high school certificates and university degrees) along with a letter motivating the application **before 30 July 2012**.
